## Newsy Notes of Pendleton

Today Friday the 13th.

Today is a most unlucky day for those people who believe in signs and superstition. It is Friday and it is the 13th of the month, a combination most evil, and any accidents that happen today will be ascribed undoubtedly to this ill omen.

### "Happy Canyon" Meeting.

Another meeting of the general committee in charge of the "Happy Canyon" entertainment will be held this evening in the rooms of the Commercial association. The appointment of assistants will be made this evening and other matters discussed.

### Three Building Permits.

A building permit was issued today to the W. F. Matlock estate for the putting on of a new prepared roofing to the Matlock building on the corner of Court and Garden streets, the work to cost approximately \$250. Another permit was issued to Mrs. W. C. E. Pruitt for changing partitions in the building occupied by the Chinese. A permit was issued yesterday to change the shelving and partitions and the office in the Alexander Department Store.

### Championship Belt to Be Better.

That the design of the buckle for the Police Gazette belt to be awarded to the champion all-around cowboy at the 1915 Round-up will be more elaborate than ever before and that the belt will be larger and more costly is the statement contained in a letter received this morning by E. L. Power from Charles J. Fox, son of the owner of the sporting paper. Mr. Fox states that the Round-up is gaining such nationwide publicity as a championship frontier exhibition that he feels that the Police Gazette should make the trophy suitable.

### Mrs. Trombley Badly Hurt.

While standing in a porch swing at her home during the noon hour to fix a sunshade, Mrs. Ben F. Trombley suffered a hard fall when the swing suddenly lurched and pitched her head foremost to the floor. She struck on

her shoulder and a bad dislocation resulted. Physicians administered an anesthetic in order to put the shoulder back in place.

### Temperature Still Up.

The maximum temperature registered today was 83 while the minimum last night was 59, according to the official thermometer.

### Buy a Big Six Horse.

Jack McPhail, well known farmer, today purchased a big six 55 Buick auto of the 1914 model from the Oregon Motor Garage.

### Father Next Is Back.

Rev. Father Thomas Neat, who has been absent from Pendleton for several months, has returned and is again at the Catholic mission on the reservation.

### Taken to Hospital.

Walter Redford, who lives on the reservation and whose hand developed blood poison from the bite of a monkey, was taken to St. Anthony's hospital yesterday and today the swelling is reported to have been reduced.

### Son Born Today.

A son was born this morning to Mr. and Mrs. Jack Atteberry of 313 South Main street. Although the birth occurred on Friday the 13th and at a house bearing the number 313, the happy parents see only good fortune in the visit of the star.

### Suing for Divorce Again.

J. C. Matheny, who sued his wife, Lizzie, for a divorce some time ago and who was refused a decree, today filed another suit, asking for a divorce on the grounds of desertion. The alleged desertion took place July 15, 1914, it is alleged. The couple were married in Kelso, Wash., in 1910. Riley and Riley are attorneys for the plaintiff.

### Pendleton Is Advertised.

Pendleton, along with New York, Chicago and other leading cities of the country, is receiving much desirable advertising through stereoscopic pictures being exhibited by the American Express Co. The company has pictures taken showing the depots and express stations of many cities from New York to Portland and Pendleton is getting as much prominence on the screen as New York. B. Parlett, local agent, attended an exhibition of the pictures in Portland last Saturday.

### Carl Bros. Pass Through.

Dr. George Carl of Portland and his brother, Byron Carl of New York, both former residents of Pendleton, passed through the city at noon today on No. 17 enroute to Portland from New York. They greeted a number of old acquaintances at the depot. Dr. Carl was accompanied by his wife. They were raised in Pendleton as boys, their father, H. L. Carl, having been a barber here. They still think the city is the "one best bet" as a small city. Byron Carl has been in the insurance business and contemplates working in stocks and bonds in Portland.

### Thrown from Car, Injured.

Thrown from the auto truck he was driving yesterday afternoon when it struck a big chuck hole, Harry Doolittle, employed by the Warren Piano House, was badly shaken up and received a sprained ankle and numerous bruises. He will be incapacitated for several days. He had a piano in the rear end of the truck and was driving down a steep grade when the car got beyond his control. Both he and the piano was thrown from the car which did not, however, turn over. The piano was considerably damaged and Mr. Warren went out this afternoon to secure it.

### Hunting Parties Make Ready.

A number of hunting parties are making ready to leave Pendleton tomorrow in order that they may be in the haunts of the deer and grouse early Sunday morning when the season opens. One party, composed of Wesley N. Matlock, John L. Vaughan, James H. Estes of this city and Trad T. Sweek of Portland, U. S. deputy collector of internal revenues, will leave for the wilds of the south end and another party going to the same vicinity will be composed of Ben Trombley, John Ross and Lee D. Drake.

### Downey Will Be Filed.

The last will and testament of the late Mrs. Nora Downey was filed today and admitted to probate by Judge Marsh. By the provisions of the will, her son, Dan Downey, secures two of the residence lots on West Webb street upon his payment to each of his three sisters, Mrs. Katherine Stewart of Salt Lake, Mrs. Ernest Tatom of Portland, and Mrs. Charles Larson of The Dalles, of \$1000 each. The other son, Frank Downey, secures the other two lots subject to the mortgage against them. The estate is valued in the petition a little over \$4000. The papers were presented by Charles H. Carter.

If the war continues to drag, it will be "an old man's war" for all of them.

### EUGENE MILLIONAIRE DIES SUDDENLY

EUGENE, Ore., Aug. 12.—Sam H. Friendly, a millionaire philanthropist, for 30 years a regent of the University of Oregon, died of heart trouble. A widow and three daughters survive. He came to Eugene 60 years ago. He was 73. He founded a fortune in the mercantile business.

## PENDLETON GETTING SHARE OF THE EASTERN TOURISTS

Judging from the number of eastern auto tourists that have been passing through the city in the past few weeks it is self evident that the Round-up City is included in the itinerary of all the auto tourists.

G. J. Gunderman, a builder and contractor of South Bend, Indiana, and William Packard, a jeweler of Akron, Ohio, accompanied by their wives, passed through the city this morning.

Mr. Gunderman drove a four cylinder 1912 model Hudson touring car and Mr. Packard a Red 1915 touring car.

The party left South Bend on May 7, taking the Southern route, arriving in San Francisco July 18, taking in Long Beach, Los Angeles, San Diego, thence touring through old Mexico and from there up the coast to Portland over the Pacific Highway. They came direct from Portland here. They desire particularly to express their thanks to Sheriff Bill Taylor, for kindly plotting their route from Echo to Pendleton.

On their return home, they will tour through Washington, Idaho and Montana, taking in the Yellowstone park, thence through North and South Dakota, Minnesota, Wisconsin, Illinois and home, which they expect to reach before the snow falls. They have traveled something over five thousand miles so far, and by the time they complete their journey, they will have traveled something over nine thousand miles.

The have had no serious accidents on the whole trip.

Mr. Gunderman reports that he has used so far 195 gallons of gasoline on his Hudson and about 3 gallons of lubricating oil.

## Portland Girl Found Suicide

PORTLAND, Ore., Aug. 13.—The body of Martha Krum, 18, a pretty domestic, was found in Holladay Park by G. A. Wood, a dentist, student. The coroner's office is convinced she suicided. No inquest will be held.

**There's no question about it.**
